#### DEFERRAL STANDARDS & COMPLIANCE CODE ISSUES – NEVADA HOUSING DIVISION, WEATHERIZATION ASSISTANCE PROGRAM (WAP), DE-EE0007934.000

#### **Deferral Standards**

Deferral may be necessary if Health and Safety issues cannot be adequately addressed. The decision to defer work in a dwelling is difficult, but necessary in some cases. This does not mean that assistance will never be available, but that work must be postponed until the problems can be resolved and/or alternative sources of help are found. In the judgement of the auditor, any existing conditions that may endanger the health and/or safety of the workers or occupants may cause weatherization to be deferred. Deferral may also be necessary where occupants are uncooperative, abusive, or threatening. Subgrantee staff and contractors, are expected to pursue reasonable options, including referrals and to use good judgment in dealing with difficult situations.

Subgrantees use NV WAP's Deferral Form for such situations. The form must be filled out completely and contain a clear description of the problem, conditions under which weatherization could continue, the responsibilities of all parties involved, and the clint's signature indicating that they understand and have been informed of their rights and options.

Deferral conditions may include:

- 1. The client has known health conditions that prohibit the installation of insulation and other weatherization materials.
- 2. The building structure or its mechanical systems, including electrical and plumbing, are in such a state of disrepair that the conditions cannot be resolved within these guidelines and at reasonable costs, i.e. repairs are beyond incidental.
- 3. The house has sewage or other sanitary problems including pet/animal excrement that can't be corrected through weatherization and would further endanger the client and weatherization installers if weatherization work were performed.
- 4. The house has been condemned or electrical, plumbing, or other equipment has been "red tagged" by local or state building officials or utility companies and weatherization funds are not sufficient or corrective measure are not allowable costs.
- 5. Moisture or potential moisture problems, as discussed above, that cannot be resolved under existing health and safety guidelines and with minor repairs.
- 6. Dangerous conditions in the home due to high carbon monoxide levels in combustion appliances or their venting which cannot be resolved under existing health and safety guidance. Subgrantees should take immediate action to ensure the appliance is not used, including instructing the client to contact a combustion appliance repair/replacement specialist.
- 7. The client is uncooperative, abusive, or threatening to WAP Staff or contractors.
- 8. The extent and condition of lead-based paint or any other identified hazardous condition in the house that could potentially create further health and safety hazards.
- 9. Pest infestation that cannot be reasonably removed or poses health concerns for workers.
- 10. In the judgement of the energy auditor, any condition exists which may endanger the health and/or safety of the work crew or subcontractor.
- 11. Homes with conditions that have the potential to create health concern requiring more than incidental repair should be deferred.

#### DEFERRAL STANDARDS & COMPLIANCE CODE ISSUES – NEVADA HOUSING DIVISION, WEATHERIZATION ASSISTANCE PROGRAM (WAP), DE-EE0007934.000

#### **Code Compliance Issues**

Correcting existing code violations in a dwelling is not allowed unless the code corrective action is required because of the installation of a weatherization measure. State and local (or authority having jurisdiction) codes must be followed when installing weatherization measures. Condemned properties and properties where "red tagged" health and safety conditions cannot be corrected under these health and safety standards should be deferred. Code corrections that are required because of weatherization but are not a direct component of a weatherization measure are to be charged as H&S expenses.

My signature below indicates I understand and have received a copy of the Deferral Standards & Compliance Code Issues as an applicant for the state Weatherization Assistance Program.
